Ruta Reisoglu

FULL STACK DEVELOPER

343-997-3768   rutareiso@protonmail.com   PORTFOLIO   GITHUB   LINKEDIN   Ottawa, ON

I am a full stack developer passionate about building well tested and meaningful applications that create great user experiences and bring people joy. I develop interactive and responsive web applications with a variety of tech tools including React, Node.js, Express, TypeScript, Python, Django, and PostgreSQL.

TECH STACK

Programming Languages: JavaScript, Ruby, SQL, Python
Front End: HTML, CSS, React, Material UI, Sass, Bootstrap, Tailwind CSS
Back End: Node.js, Express, Ruby on Rails, Django, PostgreSQL, MongoDB

Testing: Mocha, Chai, React Testing Library, RSpec, Minitest, Nock
Other: Docker, Git, GitHub, Postman, REST API, VS Code
Learning: TypeScript, GraphQL

WORK EXPERIENCE

Sep 2022 - current - Full Stack Developer, Zapier

EDUCATION & PROFESSIONAL TRAINING

Web Development Bootcamp, Lighthouse Labs
Diploma, 2022

Harvard University's CS50x: Introduction to Computer Science, CS50
Certificate, 2021

JavaScript Algorithms and Data Structures, freeCodeCamp
Certificate, 2021

Nature Sciences and Information Technology, University of Latvia
Professional Bachelor's Degree, 2016

PROJECTS

Ottabus   Live | GitHub
TypeScript, React, Material UI, React Testing Library

Public transportation app for Ottawa that provides commuters with information about upcoming bus times and current bus locations on a map in real time. Integrates Google Maps, OC Transpo and Open Weather APIs.

Mastermind Live | GitHub
Ruby

Command line mastermind game where user can chose to be the code maker or the code breaker

StoryTime   GitHub
Node.js, Express, PostgreSQL

Back-end API for Express and React SPA following the MVC pattern.

Sparkles Live | GitHub
React, Sass, React Testing Library

Shopping cart built with Context API and React hooks.

Landing Page Live | GitHub
HTML, CSS

Landing page built with HTML and pure CSS

Open Source Experience
React, Ruby on Rails, Tailwind

WND.rb - Ruby community website: Implemented a design of a 'Sponsor Us' page and built functionality of an editing page for admin.

Hacktoberfest 2021 - Contributed to several open source projects.
